Dear Sir or Madam,

My name is Sunita Rawat and I am 3rd year student at Panjab University, Sector 14 pursuing Bachelor's Degree in the Arts Stream. I came to know regarding this scholarship launched by your university with the help of my lecturer and I would like to inform you the same that I am the candidate that will fits best for applying online for this scholarship. This scholarship will provide me the instability for undertaking further course of studies.

I have been working for 2 years as a WFH Freelancer Content Writer during the covid-19 pandemic since I have got admission to the college for undertaking bachelor's degree. I am fully happy with my work of earning money while working in the home, researching on the internet with new topics day by day. Reason which has inspired me to apply for this scholarship is to provide foundational base to my dream of pursuing higher studies to a foreign university offering scholarship opportunities to me. I am lucky one that I belong to the category of underprivileged community as this will also serve as a selection criteria for enrolling my candidacy.

Along with my bachelor's degree, I am also serving as an employee working as a freelance content writer holding the designation of Head Writer in the virtual company that have help me to align my career goals. This designation has also created and generate various skills such as Creative Writing, Editing, Researching Skills and Time Management skills. I also have a keen interest in reading various technology and current affairs provided on the study platform websites which helps me to collect and gather knowledge from wherever I can.

I want to be a part of this scholarship program providing me the best educational source. I hope, this motivation letter will serve as a selection criteria through which you will consider me for the scholarship. With the help of this scholarship, I will be able to contribute better to your university in my area of interest.

Sincereley,

(Sunita Rawat)
